instructions

These reading passages are fabulous for helping students master words with blends. They can also be used to develop fluency as students are required to read the passages multiple times and many of them contain repetition. To complete each sheet, students need to:

1. Read the text 3 times. Color a star each time.

2. Read the question.

3. Write the answer to the question.

4. BONUS: To extend the activity have students highlight all the blend words or highlight the evidence from the text that they used to answer the questions.
