**Once complete, the bundle will
contain 32 centers in total.**

- ✓ **Science of Reading Aligned**
- ✓ **Organized by Scope and Sequence**

HOW DOES A GROWING BUNDLE WORK?

A growing bundle is heavily discounted because it has not yet been completed. Each time a new resource is added, the price will go up. This is the cheapest this bundle will EVER be. You don't want to miss this!

Once you purchase, you will receive access to all the existing centers included in the bundle as well as all future centers that are added to the bundle without paying anything extra.

I will be adding a new center each week until there are 32 centers in total. You can download the newly added centers for FREE in your downloads section of the website once they are added.

1. I SPY MATS

This center is best described as the most phonics fun your students will ever have. To play, students put on their detective hats, read the decodable words and search for the matching picture on the I Spy Mat.

53 mats are included in total.

This mat is the perfect word play activity. It is designed to get your students playing with sounds and letters by putting them together to build words. Challenge your students to create as many words as they can using sounds they have already learned. Add more sounds as your students learn them. If students create nonsense words, have them circle these to identify them.

11. WORD LADDERS

Word ladders are a great tool to use to help develop phonemic awareness skills. They have students substitute a phoneme in a word to create a new word.

To use the activity, students begin at the bottom of the ladder and spell the word. Then, they move onto the next word and replace a letter to build a new word. 57 ladders are included that cover various phonics skills.

23. BLENDING FLIP CARDS

These cards are designed to help young learners read words by blending sounds together in a sequence to form complete words. Students first read each individual sound. Next, they blend the first two sounds together and read them with the final sound. Finally, they read the whole word.

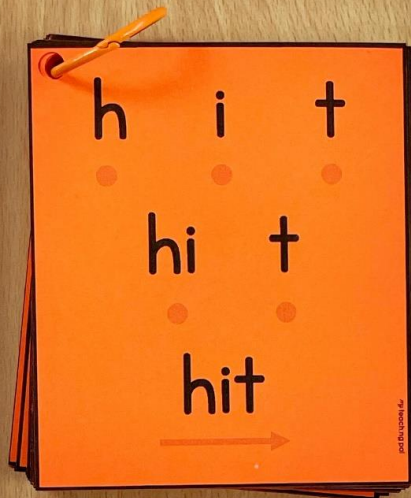

These cards are particularly useful for learners with blending difficulties as it breaks up the reading process into manageable chunks.

The packet includes 1000+ cards covering various phonics skills.
